

# TENMAT/RAILKO Marine Relaunch

A new management structure in **TENMAT** has resulted in significant changes. Historically **TENMAT's** service offering in many cases did not meet the market expectations. As we relaunch our marine business we are delighted to announce a dramatic improvement in the service offered by **TENMAT** Ltd.

## The major improvements are:

### Worldwide Stocks

**TENMAT** stocks are held at our main hubs in UK, USA and China and at our extensive network of distributors. These Stocks cover the widest range of shaft sizes currently in use. Immediate despatch to any location can be arranged, ensuring the bearing is delivered to the vessel on time.

### Worldwide Distribution

**TENMAT** has significantly increasing its distribution network in order to meet the demands of the marine market. Since April 2016 we have appointed 27 new distributors. This process is still ongoing until the target of 100 distributors is achieved.

### Quick and Responsive Service

State of the art production process now enables non-stock tubes to be manufactured in 1 – 3 days for urgent breakdowns. **TENMAT** is committed to meeting market expectations.

### 15 Year Warranty

**TENMAT** offers a 15 year manufacturer's defect warranty on *FEROFORM* and *RAILKO* marine bearings.

### Market-Leading Wear Performance

**TENMAT's** unrivalled wear performance against all major competitors has never been questioned. We now have testing to support this, so please refer to our scar wear samples.

# TOTAL MARINE SOLUTIONS

**TENMAT** marine solutions have been at the forefront of marine transportation for decades and continue to be trusted for diverse, challenging, safety-critical applications. This is proven by RAILKO and FEROFORM materials being fully approved by ALL major marine classification societies for critical applications and used by over 30 navies worldwide.

## Applications

- Stern Tube Bearings
- Propeller Bearings
- Rudder Bearings
- Steering Gear Bearings
- Deck Equipment Bearings

## Key Benefits

- Market-Leading wear performance
- Clean water systems not required
- Excellent stability, minimal water swell and thermal expansion
- Low noise
- Shaft friendly
- Accepts misalignment
- Self-lubricating

## Availability

**TENMAT** bearings can be supplied in:

- Base tubes
- Split bearings
- Stave bearings
- Complete packages in bronze housings
- ID from 20mm up to 1150mm
- OD from 30mm up to 1260mm
- Lengths up to 1200mm
- Custom sizes available on request
- Product also available in sheets

Fitted in over 8000 vessels worldwide, **TENMAT FEROFORM** and RAILKO marine bearings work with any type of water, run with smaller clearances than elastomeric bearings, are dimensionally and thermally more stable, and have superior wear resistance. Thus providing ship owners with longer service life and lower operational costs.
